Gathrie, Ok., Nov. 8.-W. D. Fossett, United States marshal, said yesterday that the killing of the outlaws, "Bert" Casey and Edward Simms, by "Fred" Hudson and F. M. Luckett, near Cleo Springs last Monday was one of the most desperate encounters he knew of in his experience in running down criminals. For six weeks Hudson and Luckett had been traveling with them as supposed members of their gang. A plan was laid to trap Casey and Simms by taking them to Cleo Springs to rob a bank.

The party camped in a pasture three miles from there last Saturday. Casey sent Hudson to Cleo Springs o look over the ground. Hudson told Luckett that on Monday morning they would cook breakfast, wash the Ashes and then sit down by the an p-fire to oil their pistols, Hudson posite Casey and Luckett opposite mms. When Hudson nodded his ead to Luckett each was to "cover hisman." The plan worked without a hitch. When Hudson "covered" Casey he said: "Throw up your hands, Casey, and don't go after your gun, or I'll kill you, for I have the drop on you."

Casey reached for his pistol and Hudson fired, the bullet striking Casey in the chest. Casey fired and missed Hudson, who then fired three more bullets into Casey's chest. While dying Casey struggled to get aim, but fired his pistol in the air.

Luckett was slower in "covering" Simms, who drew his pistol and fired once, missing his man, after which his pistol failed to work. Luckett shot Simms four times.

A farmer who had gone to the pasture to look after his cattle, witnessclose range that the faces of the out | reads: laws were powder burned.

Had the bank robbery scheme failed, the outlaws were to be led into a partner, George Moran, now in jail clude that the world and the fullness at Lawton, and on trial for the murder of Jay Beemblossom in a holdup thing happens. This occurred Tuesnear Rush Springs in August, 1901.

stantly armed, even when eating, and night Casey went away from the amp and slept alone. Luckett and Hudson decided that the only way to get the outlaws was to kill them and this was done.

of such disorders of the stomach as cholera morbus, cramps and diarrhœa; but these complaints are common during the heated term, when it is dangerous to neglect them. Pain-killer is a remedy that has never failed and the severest attacks have been cured by it. Avoid substitutes, there is but one Painkiller, Perry Davis'. 25c and 50c.

How He Won the Prince's Favor.

The crown prince of Siam, while he has a right royal impression of his own dignity, is not without a sense f humor. He has a fluentcommand academic English and converses freely in that language when he wishes to lo so, but until his visit to this

city no one suspected that he was an expert in its idioms. In passing it may be said that one of the most cherished decorations the king of Siam can bestow is the Order of the White Elephant.

While in New York the prince was the recipient of much attention from a certain city official who had been forgotten when Kaiser Wilhelm distributed ribbons, crosses and jewelry in return for the entertainment of his brother, Prince Heinrich. The official hoped to so impress the Siamese visitor that a decoration from the guest's kingly father would be forthstake the official approached a onveyed to the prince, whose only ciated in business.

ment was: "Mr. - is a nice man. I like him. I like him too well, in fact, to leave him with a white elephant on his

Monster Fossil Frog Bones.

Norman, Ok., Nov. 8 .- H. W. Menke, of the Field Columbian Museum, Chicago, is in Oklahoma found. They were small backbones, leg bones and a few skulls and teeth. sas University for identification. He pronounced them exceedingly rare.

Mr. Menke to Oklahoma, where he has collected a number of these bones. Speaking of the animals to which the bones belonged, Mr. Menke said they probably were members of the class known as amphibians, or possibly a few of them were primitive reptiles. The amphibians constitute the class of animals now represented by frogs, toads and salamanders. The extinct bones were much larger, however, than those of amphibians now living. If one can imagine a frog as big as an ox he will have some idea of the appearance of those prehistoric monsters that once flourished in Okla-

For all fresh cuts or wounds, either on the human subject or on animals Ballard's Snow Liniment is excellent; while for corn-huskers' sprained wrists, barbed-wire cuts and sores on working horses, it cannot be too highly commended. Price, 25 and 50 cents.-H. L. Tucker.

## Ben Franklin's Statement.

Macon, Mo., Nov. 8.-There is a world of consolation in the proclamation issued by County Central Committer Chairman Ben Franklin to the Democrats to day. Ordinarily Macon County goes Democratic all the way from 500 to 1,000. Tuesday she careened a bit, and Republicans slipped into five important ofthe fight. The firing was at such fices. Mr. Franklin's manifesto!

"Whom the Lord loveth he chustenth. That was true when the world was young and equally so totrap by attempting to liberate their day. Just about the time we conthereof is ours by divine right someday. We will let that pass. The Luckett and Hudson were released future is bright with promise for the from the federal jail here about two Demogratic party in State and namonths ago on bond. Luckett is tion. RUSSIA TO EXPORT MEATS.

Plan Under Way to Establish Regular Line of Cold-Stprage Steamers to England.

collecting fossile. A few years aso, Russia has fully decided to attempt near Orlando, many fossil bones were to export meat to England, and live stock, if desired. At a conference on the subject at Moscow the assistant minister of finance, M. Kavalevsky, Most of these specimens were sent to declared the government was pre-Doctor S. W. Williston, of the Kan- pared to assist financially in launching this branch of export trade. A government official will probably be manager of the export syndicate. Doctor Williston last year went to Slaughter-houses at Libau, on the Chicago to accept a position in the Baltic, and a regular line of cold-Field Columbian Museum. He sent storage steamers to England are among the prerequisites. M. Kavalessky hopes a market can be found for 80,000 head of cattle, or one-tenth of the present annual production, in European Russia and 26,000 tons of pork, besides fowl. The ships and slaughter-house will cost \$900,000, it is estimated, of which the government will probably advance \$500,000.

The Siberian butter export trade already been successfully launched, cold-storage butter trains being forwarded ahead of ordinary freight to Riga, where cold-storage steamers load for England. Up to the present time cattle raising has been greatly neglected in Russia. It remains to be seen whether the poor quality of beef now produced will find a profitable market in England.

SEEKS HEIR TO LARGE ESTATE

Invalid Shoemaker in Ireland Want Property If Sister in America Convents.

John Smith, an invalid shoemaker living in Ballinislau county, Ireland, has written the Chicago police, asking them to search for his missing sister, Margaret Smith O'Neill. The sister is the next heir to a large estate of a deceased brother. Edward Smith. The estate is in Ireland, and in the hands of the British government. In the letter Smith explained that he had applied to the government for possession of the land, but was informed that he could not claim it until he showed proof that his sister consented to the transfer or that she is not living. He said that the sister left Ireland some time ago, and had been at the home of an uncle, W. McDowd, at 341 Hoyne avenue, Chicago.

A number of years ago Private Edward Smith, of the First battalion. Connaught rangers, died, leaving an estate to his sister, Margaret Smith O'Neill. The sister had then left for the United States. John Smith, the brother, said that he wished to get possession of the estate because he is an invalid, has no money and will soon be forced to give up work.

AN ANGLO-AMERICAN CLUB.

London to Have Society Called th "Pilgrims" to Promote International Good Fellowship.

London is soon to have another Anglo-American club, but on entirely different lines from the Anglo-Ameri can club which has been talked about cables the London correspondent of

Well-known men of America and the English capital are to meet at the Carlton hotel on Friday to discuss the plans, and from the interest displayed it seems most probable that the matter will be carried through.

The object of the club-which probably will be called the Pilgrims-is to promote international good fellowship. The qualifications for membership are public service, literary or artistic achievement, journalistic work, extensive travel and frequent travel across the Atlantic. It will be conducted somewhat along the lines of the Gridiron club, at Washington. Headquarters will be established in New York and London.

In England it is proposed to have one American member to three Englishmen, and in America the inverse ratio. The membership fees are to be

PRAYERS BETTER THAN CASH.

Ellen Stone Tells Luther League at St, Paul How She Escaped from the Brigands.

Ellen M. Stone, the missionary held captive by Bulgarian brigands so many months, and who was finally ransomed by money subscribed in the ers at the sessions of the Luther league at St. Paul.

Miss Stone asserted that she owed in securing her freedom than the money paid to her captors. She said:

"I am a proof to this Luther league of God's faithfulness in answering prayer. We received the world's benediction of prayer, which did more than the thousands of dollars, the price with which we were bought. I bring you good news from Macedonia, where in Bamako and Samapo there is great tenderness of heart and inclination towards Christ as a fruit of

the barbarism of the brigands."

Keeping Still and Sawing Wood. There still appears to be some doubt in Europe as to whether the the finances and commerce of the world, says the Chicago Inter Ocean, and, while Europe is doubting, the United States continues to saw wood.

Shirt Waist-Prencher,

Newark, O., has a preacher who wears a shirt waist in his pulpit, and the Chicago Record-Herald remarks that he is probably taking all the papers to see how many of them will print his picture.

TO OPPOSE KISSING.

Northwestern University Students Organize for Odd Crusade.

Society to Be Known as "the Kiss Shunners" and Will Wage a Warm Campaign Against Practice of Osculation.

An antikissing society is the latest in Evanston, Ill. It now has 15 members, all students of Northwestern rejected some of the applicants for membership because they would not take the strong vows of opposition to osculation. The name of the society will prob-

ably be "The Kiss Shunners." It held its first meeting the other evening at the home of Edna Philip, and there resolutions were presented, officers elected, new members admitted, and the future of the society discussed. The society was organized July 4.

It was the result of a visit by some of the tharter members to Lincoln park, when, it is said, they were shocked at the free indulgence in pleasures osculatory by many of the swains and their best girls.

Two names have been suggested for the new organization. One, "The Kiss Shunners," is advocated by those who believe that the members should work openly. The other is "The Evanston Outing club," favored by those who think greater good will be accomplished if the work is carried on se-

Both names were proposed at the meeting the other evening, and the dehate over them was so strong that neither was adopted, although the advocates of "The Kiss Shunners" were greatly in the majority. The following resolutions were presented:

Realizing that kissing is very demoralizing and detrimental and that it is con-tagious, we, the undersigned students of Northwestern university, following the ex-ample of one of our beloved professors. solemnly swear that we will retrain from all hissing and that we will try to persuade there likewise to refrain.

These resolutions were presented

but lack of time prevented their bing actd upon, and they were referred to a committe. At this meeting a song was also submitted, the chorus of which lwells on the determination of the singers to refusin from kissing.

This song, it is said, will be song a every meeting before the taking up of mined upon, and that it will be worn upon the right arm of each member Just what the design of the badge i to be has not been determined. Every applicant must affirm that he or she is an "antiosculator" before being ad-

FORCED TO WORK BY WOMEN.

Tramps Stranded by Wreeked Trail in Kansas Aid in Harvesting at Point of Shotguns,

Tramps have been pressed into service as harvesters in the section of Kansas about Wichita. Fifty or more of the "hobo" fraternity were captured by irate farmers near Pratt, and all day long they were forced to armed guards. The strange part of the proceeding was that the guards were women. The deficiency of farm hands in Pratt county alone was 2,000, while the state was short about 10,000 men.

David W. Blaine, the harvest hand importer, had arranged for all the men for Pratt county. The men, however, were captured by farmers along

Late at night a freight train west-There were 50 or 60 tramps on it goof it and they tried to employ them the hurdles. at \$2 per day. Very few of them were willing to work, so with shot gun persuasion they were distributed among the farmers.

FINDS LOCUSTS NOURISHING.

Dr. Gustave W. Lehman, Baltimore Health Official, Recommends Them as Food,

Dr. Gustave W. Lehman, analytical chemist of the health department, announced the other day that locusts are good to eat; good in the sense that they contain a considerable amount of nourishment. "I have been making analysis of the locust," said the chem ist, "and I find that the insect has properties that recommend it as an article of food for those who like that kind of diet. Personally, I cannot say that I have ever tasted it, nor have I any ambition to do so, but this does not prevent me recommending it to others as nourishment for those who relish dishes of this character."

Imitating the Liberty Statue. There is talk of erecting at the entrance to Sydney harbor as a monumental tribute to the triumph of federation a colossal statue of "Australia Facing the Dawn," a sort of rival to "Liberty Enlightening the World," on the island in New York bay. Funds, however, have not been forthcoming and now it is reported that one of the principal advocates of the project has written to Lord Rosebery suggesting that a contribution from the £3,000,-000 left by Cecil Rhodes to "promote the consolidation of the Englishspeaking people" might be legitimately allocated to this purpose.

Evil in the Clonk of Charity. American society women who go to London and tend bar at royal bazaars, says the Chicago Record-Herald, must take it for granted that done for charity.

FAST TURBINE YACHT.

In a Lively Race at New York, the New Steam Yacht Revolution Bents Speedy Side-Wheeler.

The new steam yacht Revolution, the first craft of the kind to be fitted out with turbine engines, fell in with the speedy Monmouth, of the Sandy Hook line the other afternoon and in a lively 20-minute race from Robbins reef to Swinburne island won by a good length from the blue ribbon holder among the harbor fliers. The Revolution was launched last summer from the Charles L. Seabury university, and at its first meeting works at Morris Heights and the adaption of turbine principles to its engines was invented and applied by Charles G. Curtis, who was on board the other day.

While its owners claim the vessel was not built for speed purposes, it was decided to put it against the Monmouth, whose speed is figured at 20 knots. The Revolution forged ahead inch by inch and was lying close to windward with the expectation of crossing the Monmouth's bows. Just off Swinburne island, however, the side wheeler St. Johns came up on the way from Atlantic highlands and the Revolution was forced to turn its course to star board, and the race was over.

Then Capt. Champlin and Engineer Kenney did "stunts" with the turbine boat. In 26 seconds the yacht was brought to a dead stop from full speed ahead, and while traveling a its cruising speed of 161/2 knots it was turned in a little more than its own length.

BEYOND THE CENTURY MARK

If Claim of Colored Woman at Wash ington is Valid She is Probably Oldest Person in Country.

Washington shelters probably the oldest person in the United States, if the statements of a highly respected colored woman are accurate. Mary Etta Davis claims to have been born on March 2, 1777, which would make her 125 years of age. She was 6 o'clock. He went to the hotel at 6 born in Maryland, and says that descendants of her master have found recorded data to sustain her claims. She remembers Washington's first in auguration, the war of 1812, the me- for ice water. He complained of feelteoric shower of 1790, and other hap- ing ill. penings in our early history as a nation. There are several discrepancies in her statements, however. says she was married at 35 and that her husband died during the civil war before they had celebrated their gency Hospital was called, and said thirty-seventh wedding anniversary Assuming that he died in 1861, Mrs. Davis would now be 112 years old, if she is not mistaken concerning her of death was convulsions, due to age at marriage. She enjoys good health, is wonderfully active, has good eyesight and assists in the discharge of household duties about her

SAYS AIRSHIP IS SUCCESS.

T. C. Benbow, a Montana Man, Challenges Santos-Dumont to a Unique Ruce.

T. C. Benbow, a resident of Carbon county, Mont., who has been in Washington for the last month su- in that city. During President run binders and carry bundles by perintending the construction of the Arthur's term he served for a year in model of an airship which he has the United States consulate at Liverspent ten years in perfecting, has pool. left Washington for Frankfort, N. Y., where he will conduct experiments, which he believes will convince the world that the problem of aerial navigation has been solved.

Benbow, says that his balloon is completely dirigible, and he recently challenged Santos-Dumont to a unique race over a course set with hurdles, some of the obstacles being place, St. Louis. Alex. Vest, his ward bound was wrecked near Pratt. placed on the ground and some suspended in the air, the balloons to be ing to Colorado. The farmers heard diternately steered over and under

A MOTHER'S LOVE.

Makes Her a Stowaway on Steamer Which Is Bearing Her Son to America.

Notwithstanding that the woman was a stowaway and without means, the board of special inquiry at the immigrant station at New York has given Mrs. Louisa Schaller her liberty and remitted her fine.

Mrs. Schaller, who found herself unable to support her ten-year-old son in Germany, toiled until she had saved up enough to send him to relatives in America. She accompanied him on board a steamer at Bremen, but was unable to bear the separation when visitors were ordered ashore and secreted herself below. A relative promised to see that she will not become a public charge and one of the stringent emigrant rules was relaxed in her favor.

Exports of Porto Rico. Exports from Porto Rico to for eign countries for the fiscal year ended June 30 increased 54 per cent. over the total of such exports for last year; the increase in the island's exports to the United States was 48 per cent. over the total for the last fiscal year. Sugar, tobacco and hats formed the principal articles of export. The customs receipts for the last fiscal year reached \$800,000, and the balance from the insular revenues was increased by \$240,000.

Wireless Telegraphy for Submarines Rear Admiral Fournier was present at experiments at Cherbourg in wireless telegraphy, carried out on the submarine boat Triton. Messages were received without any difficulty when under water. It is said to be the intention to install the any old thing's all right when it's apparatus on board all French sub-

The cure begins on the first application, a little perseverance makes the cure complete. Price, 50 cents in bottles. Tubes, 75 cents.-H. L. Tucker.

Found His Boy With a Circus.

Joplin, Mo., Nov. 8 .- John Clayton, a 17-year-old boy of Henderson, Ky., who was stolen by circus employees in that town four years ago when 13 years old, is being held here by the police. He will be returned to his parents at Henderson, who are wealthy. The boy's father has spent thousands of dollars and traveled over many states in search of his lost son. While in Joplin last spring he notified the officers to hold the boy if he were found. It was reported there that he was with a circus in the west. He offered a reward of \$1,000. The lad was caught at Oswego, Kap. The boy has been living the life of a "hobo" and declares that he doesn't want to go back home and that he is well satisfied.
